Zhicheng LIANG

zhichengliang1@link.cuhk.edu.cn | CUHK-Shenzhen | Google Scholar | +86 15819436529

EDUCATION

The Chinese University of Hong Kong (Shenzhen) | Ph.D Candidate 09/2023-03/2027
Major: Computer Information in Engineering | Supervised by Prof. Fangxin Wang

City University of Hong Kong | MSc in Data Science | Distinction 09/2020-11/2021

Jinan University | BEng in Internet of Things 09/2015-06/2019

RESEARCH INTERESTS AND ONGOING RESEARCH

Research Interests: 3D & 4D Generation and Reconstruction, Spatial Intelligence, Multimedia System

Research Intern @ Alibaba | 3D Foundation Model:

- Led research on the pre-training and post-training of large-scale 3D foundation models with video world-model priors.
- Scaled model training across multi-node GPU clusters and optimized training efficiency.

SELECTED PUBLICATIONS & PREPRINTS

3DReflecNet: A Large-Scale Dataset for 3D Reconstruction of Reflective, Transparent, and Low-Texture Object
Zhicheng Liang, Haoyi Yu, Boyan Li, Dayou Zhang, Zijian Cao, Shuguang Cui, Fangxin Wang†
*IEEE/CVF CVPR 2026 (Oral, **Best Paper Finalist, Top 0.37%**) (CCF A)*

4DGStream: Variable Bitrate Dynamic Gaussian Splatting Streaming
Zhicheng Liang, Dayou Zhang, Linfeng Shen, Miao Zhang, Fangxin Wang†, Jiangchuan Liu
IEEE Transactions on Multimedia, 2026. (CCF A)

BubbleSplat: Forget Swollen LODs with Low-Redundancy, Inflation-Driven 3D Gaussian Streaming
Zhicheng Liang, Boyan Li, Zijian Cao, Dayou Zhang, Wei Sun, Zizhou Gong, Fangxin Wang†
ACM International Conference on Multimedia, 2026. (CCF A)

MobileSplat: Real-Time Streaming and Rendering of City-Scale 3D Scenes for Mobile Platforms
Zhicheng Liang, Junhua Liu, Dayou Zhang, Boyan Li, Zijian Cao, Yaxi Liu, Feng Qian, Fangxin Wang†
IEEE Transactions on Mobile Computing, 2026. Early Accept. (CCF A)

Fumos: Neural Compression and Progressive Refinement for Continuous Point Cloud Video Streaming
Zhicheng Liang*, Junhua Liu*, Mallesham Dasari, Fangxin Wang†
*IEEE Transactions on Visualization and Computer Graphics, 2024. **(Oral in IEEE VR 2024)** (CCF A)*

A Benchmark Study of Deep-RL Methods for Maximum Coverage Problems over Graphs
Zhicheng Liang*, Yu Yang*, Xiangyu Ke†, Xiaokui Xiao, Yunjun Gao
International Conference on Very Large Databases, 2024. (CCF A)

WORK EXPERIENCE

City University of Hong Kong | SDSC | Research Assisitant 08/2022-03/2023

- Research topics: graph mining and reinforcement learning, supervised by Prof. Yu Yang.

Huawei Technologies CO., LTD. | Algorithm Engineer 08/2019-07/2020

- Knowledge-graph-assisted intelligent Q&A system development.

INTERNSHIP EXPERIENCE

Alibaba | Research Internship | Meta Team 06/2026-Now
Tencent | Intelligent Product Group | Algorithm Engineer 11/2018-12/2018
Wizard Quant | Big Data Engineer 03/2018-08/2018
